2020 MAINTENANCE FREE SWIMMING

Do you ever get tired of testing the pool water, backwashing the filter, vacuuming the pool, and general clean up of your pool area? **For some time now** we have realized that many pool owners, for one reason or another, cannot maintain their pool in top operating condition. Failure to keep close check on chemical levels, proper backwashing intervals, etc., shorten the life of pool equipment, consequently leaving a pool that is not clear and less inviting. **In response** to numerous requests we have set up a program designed to make pool ownership completely **TROUBLE – FREE.**

Here's how it works:

After your pool is opened, water balanced and CLEAR (algae free)*.

On a weekly basis our maintenance people come to your pool:

- 1.) we vacuum the pool
- 2.) we make a quick check of your pool equipment
- 3.) we backwash your filter
- 4.) we empty all strainer baskets
- 5.) take water sample back to water analysis lab., for testing
- 6.)* install necessary chemicals

ALL YOU DO IS ENJOY YOUR POOL
